

Puget Sound TRT
Twenty second meeting— Tuesday, January 15, 2002
Northwest Fisheries Science Center, Seattle, WA
DRAFT Agenda
(NWFSC Rm 370W)

- 9:00** **Viability issues (Sands et al.)**
 * update on analyses, work through remaining issues before new numbers are ready 1/29
 (e.g., which populations can we expect to have results from PVA and HPVA?)
- 10:00** **Snohomish WRIA case study debrief**
- 11:00** **Discussion of planning ranges (All)**
 *how the TRT will present the meaning of planning ranges—relationship between
 equilibrium abundance and spawner numbers under different scenarios.
- 12:00** **LUNCH BREAK**
- 12:30** **Revisiting delisting criteria (All)**
 *discussion of language, content for what we want to say about VSP parameters at
 population level, how ESU-level criteria will be expressed, what we want to say
 about H's in re: delisting criteria and guidance for actions.
- 1:30** **TRT-Shared Strategy work plan (All)**
 *go over draft work plan, make changes. Prepare for 1/28 meeting with SS staff group.
- 3:00** **General business (All)**
 *schedule for finalizing pop ID document, remaining issues to be resolved
 *other correlates of population ID—flow, etc. (Fuerstenberg)
 *update on geographic regions of significance (Fuerstenberg)
 *plan for sockeye and chum work groups, progress, schedule
 *schedule revisions of “blue paper”
 *debrief from RSRP visit and next steps
 *information sharing on the web and Docushare (Sands)
- 5:00** **ADJOURN**
